

WANT SOMETHING DIFFERENT FROM WHAT YOU BUY ON THE HIGH STREET?

All of our sofas and chairs are individually made, so we can alter our standard sizes and specifications. Tell us about your room and how your furniture will be used, and we will be able to advise you on the best options for your new sofa. We will work with you on your budget, so you get the sofa you want for the price you want to pay.

1. Comfort – THIS MOST IMPORTANT ASPECT OF ANY SOFA

We offer a wide range of comfort levels with feather, fibre and foam cushions available, and coil sprung and serpentine sprung seat platforms.

We can help you make the right choice.

2. Choose your Style

We have a large selection of styles to choose from, some but not all on display in our showroom.

We have pictures available of other styles or with our help why not design your own.

3. Choose your Size

You can choose the seat height, back height, the width and depth of the sofa. It's your home and it's your choice why compromise.

Why not consider a corner unit or sofa bed.

4. Fabric or Leather

We have a huge range of fabrics and leathers to choose from, including washable and we will advise you on colours and textures to match and complement your existing furnishings

5. Finishing Touches

Select your own finishing touches with the colour and style of the legs. Choose your scatter cushions to match your furniture, add armcaps and accessories to complement your sofa and fit into your lifestyle.
